Introduction

It has been more than twenty years since the first edition of the Adventurer Awards Manual was produced at the General Conference for the World Adventurer Ministry. There have been many changes, additions, and improvements during this time. Adventurer Ministry has shown huge growth as well. Youngsters in this age group are full of energy and get excited about being a part of an organization that is designed to expand their view of their world and strengthen their relationship with God, Mom, and Dad through ways that are so much fun.

The roof over Adventurer Ministry is supported by several strong pillars. You hold in your hands one of them: the latest updated manual covering all 83 currently accepted Awards for use around the world. There is of course, one small problem: This area of Adventurer fun is not a static field of possibilities, it is a constantly growing—maybe almost exploding—source of activity. Therefore even at the time of this edition's printing, there are already more Awards being created, piloted, and introduced. You will want to check out the General Conference Youth Ministry website periodically to see what new fun, eye opening, mind expanding, energizing Awards are coming out next.

We recommend that you carefully review all of the Awards herein published and select for your program a variety that will provide each of your Adventurers with a well-rounded program to whet their interest and excitement. Look for ways to make each Award meaningful and interesting. Requirements are minimums, not maximums; the objective should NEVER be to just add another patch to a child's sash at whatever minimum effort! The objective is to awaken in the child an interest in developing a passion or to stir up a latent, previously hidden talent. The more we challenge each child to do their best, the more each one will grow "in wisdom and stature and in favor with God and man."

Lest we forget that ours is a MINISTRY and not just another club, we are to constantly remember that a key component of every Award is the spiritual component—while each Award is to awaken an interest in the chosen subject, it should also show the Adventurer another facet of God's interest in and care for each child. While perfection is not the requirement in every Award, we should constantly seek to encourage each one to do their absolute best at whatever level they find themselves in recognizing that God is not finished with them yet—nor with us as leaders either!

--Bob Holbrook, Retired World Adventurer Director.

Philosophy and Objectives of the Adventurer Awards

Each award is designed to be a course of study that introduces a subject. This subject should have practical value and should enhance the lifestyle of the person pursuing the award. Award study should assist the person in his/her development as a well-rounded Christian by directly affecting the social, emotional, physical, and spiritual aspects of life. The study of an award should direct the child to a deeper love of the Creator and should increase one's interest in committing their life in service to God and to the community.

Award study is intended to help the child's spiritual character development. Therefore, every award should be designed to require high standards of excellence by clearly stating in all requirements what tasks are to be accomplished. Fulfilling the requirements should be interesting and fun, while at the same time providing the child with a sense of achievement.

Because Adventurer awards are a part of a church-sponsored program, all facets of course study should be in harmony with basic church standards. For this reason award study would normally avoid topics with requirements calling for destruction of plant or animal life as well as types of armed or unarmed defense. Also, subjects should be avoided that could only be studied by a small group of people in a single local area.

It is the purpose of all awards to help the child to "increase in wisdom and stature and in favor with God and man."

The Adventurer Club provides fun and creative ways for children. . .

1. to develop a Christ-like character;
2. to experience the joy and satisfaction of doing things well;
3. to express their love for Jesus in a natural way;
4. to learn good sportsmanship and strengthen their ability to get along with others;
5. to discover their God-given abilities and to learn how to use them to benefit self and serve others;
6. to discover God's world;
7. to improve their understanding of what makes families strong;
8. to develop parental support for the training of children.

Guidelines for Participating in the Adventurer Award Program

1. Children age 6 - 9 (or in grades 1 to 4) are eligible for Adventurer membership.
2. Club activities include Adventurer Awards, field trips, and regular club meetings. Before joining the club, the Adventurer must agree to participate and cooperate in these activities.
3. Members must be faithful in attendance. Many clubs establish limits on absences and tardinesses, and Adventurers who do not comply with these regulations are asked to withdraw from the club.
4. The parents of the Adventurers must be willing to agree to and cooperate with the regulations and activities of the club, as agreed on the Adventurer Application Blank. At times they may be asked to supply money and time to support their child's membership.
5. Adventurers should own and regularly wear a complete Adventurer uniform. They must come to meetings and club-sponsored events in full uniform, as advised by the club director.
6. Adventurers are expected to obey all regulations and instructions of the Adventurer staff.
7. Club members must be willing to participate in community service projects and Share Your Faith and Outreach programs.
8. Adventurers must learn and live by the principles of the Adventurer Pledge and Law.

Difference Between Pathfinders and Adventurers

The Adventurer Club has been created so younger children may have a club of their own. The programming and planning for the Adventurer Club should be simple and short, but creative. In some ways the Pathfinder and Adventurer Clubs are similar, but the Adventurer program is to be unique in its own way and should be kept separate. One of the Adventurer Club objectives is to provide a meaningful and exciting experience as the children look forward with anticipation to being a Pathfinder in the future. The Pathfinder Club is designed to meet the growing needs of children ages 10-15 by strengthening healthy peer relationships. Adventurers is designed to meet the needs of 6-9 year olds by strengthening their family relationships.

It is not intended that we duplicate all the experiences of Pathfinding, but rather that by providing a separate Adventurer Club many needs of the youth aged 6-9 will be met in an exciting and enjoyable way and thus they will be ready to fully enjoy the Pathfinder experience when that time arrives.

In many instances parents have children in both clubs and may be involved themselves. Therefore, it may be necessary to operate the Adventurer and Pathfinder club meetings at the same hour and day, but this does not mean that the clubs should be combined.

3. Share two choices that you can make this week that will build up and not break down your character. A building's foundation is the most important part of the building. Our foundation is our character. Jesus, the master builder, will help us make good choices that will build a strong character.
4. Read Revelation 21-22 and learn about the heavenly home that God is making for all who choose His gift of eternal life. What building materials is He using?
5. Construct one or more buildings of any size or type. You may work individually or in teams.

Supporting Answers

1. As you review the stories, emphasize the items built and encourage the children to discuss the choices the Bible characters made.
 - a. God asked Noah to build an ark. It took Noah 120 years to build the ark and he lived on it for more than one year. Extra: How big was the ark? Use a long measuring tape to find out.
 - b. Babel—God knew the best thing for the people at that time was to live in tents so they could spread across the earth—not to build the tower of Babel.
 - c. Abram's home was a tent. Extra: Make Abram's tent out of sheets and chairs.
 - d. God asked Moses to build a portable tabernacle.
 - e. God asked Solomon to build a tabernacle in Jerusalem.
 - f. God sent Joseph and Mary to a stable.
 - g. At the end of the Sermon on the Mount, Jesus refers to a man who built a house by first laying a strong foundation on a rock.
 - h. God wants you to live in the house He is building for you in heaven.
2. Questions you might ask: What materials do you build with? How do you know where to build? What is this tool used for? What do you need to learn to be a good builder? Alternatives: take a trip to a construction site, interview a workman and ask questions about the building.
3. Ways to share choices (you may work in teams):

 - b. Mime or act out a choice.
 - c. Illustrate a choice in a painting, drawing, sculpture, or on a computer, video or camera.

Buttons

Originated in: North American Division

Requirements

1. Create and decorate a clothing button container.
2. Start a collection of clothing buttons. Variety is more important than quantity, though each child should have approximately fifty buttons.
3. Decorate with buttons and/or complete a button craft.
4. Play the "Button, button, who has the button?" game.
5. Have a "Button Trade Night."
6. Read and discuss Hebrews 13:16.

Supporting Answers

1. Use a container of our choice, such as an oatmeal box, tin, shoe box, or cloth bag. Decorate with buttons, paint, paper, etc.
2. Ask family, friends, and church members for buttons.
3. Some suggestions are: Sew buttons on clothing, glue buttons on to a frame, punch holes in heavy card stock and secure a button on back to create a card to send someone or to display buttons. Sew on small buttons to decorate napkins, place mats, or napkin rings. Stamp a design on cloth and add buttons. See “resources” for more button crafts.
4. The children all stand (or sit) in a circle with their hands out, palms together. One child, takes a button and goes around the circle, putting their hands in everybody else’s hands one by one. In one person’s hands, they drop the button, though they continue to put their hands in the others’ so that no one knows where the button is except for the giver and receiver. The leader starts the other children guessing by saying, “Button, button, who’s got the button?” before each child’s guess. The child guessing replies with their choice, e.g. “Billy has the button!” If you have the button, you choose someone else so that no one knows it’s you. Once the child with the button is finally guessed, that child is the one to distribute the button and start a new round.
5. It is important to make this a sharing event and avoid competition. Suggestion: Make teams, giving each team a specific amount of buttons and specific designs to make, but they have the option of trading buttons with other teams to complete their projects, which gives them a sense of sharing with others.
6. Talk about how the children can be like Jesus by sharing with others.

4. Basic tools include a hammer, hand saw, measuring tape, screw driver, chisel, boring tools, and planes. Clean and put away after each use. You may wish to have a carpenter come to demonstrate the use and care of these tools.
5. This may be done as a group, with parents, or you may have a carpenter visit your group and show types of wood, etc.
6. Use simple designs for the project you choose. For safety use, use only hand tools. This project must be closely supervised by an adult who can demonstrate how to use the tools properly.
7. Matthew 13:55 speaks of Christ as a carpenter. Discuss how He may have helped His earthly father make such things as tables, benches, cabinets, stairs, doors, window frames, etc.

Glue Right

Originated in: North American Division

Requirements

1. Practice controlling the glue on scratch paper.
2. Learn how to control the glue by practicing different methods of applying glue.
3. Child may glue a star, sequin, or other items on the line they think they learned the most about controlling glue and tell why.
4. Read and discuss Proverbs 18:24.
5. Make a craft or picture using glue the right way.
6. Put glue evenly in a small circle on the back of your hand. Wait for it to dry. Can you pull the glue off your hand in one piece?
7. When you are finished with the glue, always clean the top of the glue container and replace the cap.

Supporting Answers

1. Providing glue containers with undamaged tips is important for the success of this award. Instruct children to practice squeezing the glue bottle lightly to make a thin line and then squeeze a little more to make a thick line. When they feel they have control of the glue, they are ready to practice on the form.
2. Create a glue right form or find a sample form on the NAD Adventurer website under “awards.”
 - a. Lines 1 & 2: Make the glue flow in a thick line to fill the space without going past the end of the lines.
 - b. Lines 3 & 4: Squeeze the glue very lightly and hold the tip of the container above the paper. Make the glue flow only on top of the thin lines without going past the end of the lines.
 - c. Lines 5 & 6: Cover each dash without going past the end of the dash by squeezing and raising the container up when the first dash ends and putting it down, squeezing again to make the next dash.
 - d. Circles: Put the glue in the middle of the circle and squeeze the container lightly and let the glue spread out to the edges. Fill in each circle without going past the lines.
 - e. Magazine pictures: Thin paper takes very little glue. Put just a small touch of glue on your finger and lightly touch the corners of the picture so the glue will not show through to the front side.
 - f. Design: Use any type of sequins, gems, or small trinkets. Squeeze a small amount of glue on scratch paper. Use a toothpick to put glue on the items like sequins. Larger, heavier items will take more glue.
 - g. Outline the star in glue and cover with glitter. For best results, do one angle at a time or use a toothpick. Recommend staff set up one location where glitter is applied.
3. Never judge the success of this award by how neatly they completed the Glue Right form. The award is a success if they understand the techniques and know it is their job to learn ways to control glue.
4. The friend who stays faithful, even when all others turn away, reflects Jesus. He is the true and faithful Friend, the One who never fails.
5. Any craft that requires glue is appropriate.
6. No purpose—just fun.

3. Let children discuss how they would teach this skill to other children.
4. With the help of your leader, practice teaching others to make hand shadows.
5. Teach someone how to make two or more hand shadows.

Supporting Answers

3. Describe the three main types of magnets:
 - a. Permanent magnets
 - b. Temporary magnets
 - c. Electromagnets
4. What are magnets used for?
5. Complete three magnet experiments, such as those listed below:
 - a. Magnet treasure hunt: Place objects around the room that will and will not magnetize. See how many different objects they can pick up with their magnet. Suggestions: nuts, bolts, tin foil, safety pins, etc.
 - b. Mineral rocks with iron: Lay various mineral rocks on a table and see if children can select the ones with iron in them and then try to pick them up with their magnet. (See resource #2)
 - c. Move an object with a magnet: Have a friend hold a sheet of paper between his/her two hands, place paper clip on top of the paper and a magnet below. Move the paper clip from one end to the other and back again with your hand. Repeat this experiment by having your friend hold a plastic ruler, mirror, cardboard, etc. instead of paper. Did it work?
 - d. Create a magnet: Stroke a steel nail against the magnet 25-30 times. Stroke it in only one direction.
 - i. How many paper clips can you pick up at one time?
 - ii. Is the nail as strong as your magnet?
6. Read and memorize Hebrews 7:19 and James 4:8.

Supporting Answers

1. A magnet is made of magnetite, a natural magnetic material that will create a magnetic field. A magnetic field is the force surrounding a magnet that draws objects to the magnet. You can feel this force when using a magnet.
2. Many years ago there was a shepherd named Magnes. Each day he kept watch over his flocks. One cold, blustery day, one of Magnes' lambs was missing from its mothers' side. Neither Magnes nor the mother could locate the little lamb. He looked behind rocks, in the thicket, near the stream, behind the bushes, and soon he realized it was really lost. He didn't believe a wild animal had stolen it or eaten it. He was sure he could find it, if only he looked in all the right places. He stood on a large rock so he could look upon the landscape of the pasture in hopes of finding "whitey", the lost little lamb. As Magnes stood on a rock, his sandals stuck to the rock where the nails in his sandals were located. He had never noticed that strange power before. Over a period of days and weeks, he brought other metal objects to the "magic rock" and found that iron, regardless of the size, would stick to the "magic rock." He took some of the stone to his village and many people played with it. It became known as "Magnes' stone." Today it bears part of his name in honor of his discovery: "Magnet." We call his "magic" stone a lodestone, which is made of magnetite, a natural magnetic material.
3. (A) Permanent: when it is magnetized, it retains a level of magnetism. (B) Temporary: acts like a permanent magnet when it is within a strong magnetic field, but loses its magnetism when the magnetic field disappears. (C) Electromagnet: a special wire that acts like a permanent magnet when electrical current is flowing in the wire. For more detail, see resource #1.
4. Refer to resource #1.

Supporting Answers

NOTE: This award is one of the requirements for the Builder Class.

1. Media are forms of communication that reach a large number of people, such as newspapers and magazines, television, films and videos, books, radio, and musical recordings. Explain to the Adventurers that any form of media in itself is neutral, and that it can be used for good or bad. Explain that in today's society, children and adults will be bombarded by media messages; it is hard to avoid being affected by what we see and hear and read. That's why it is important to learn to control the media by choosing what is good and helpful.
2. Read Philippians 4:8 together and encourage the Adventurers to use it as a guideline in making choices about what they do and see. Explain and discuss these principles with the Adventurers, and ask them to tell you what they have learned from this Bible verse.
3. Teach the Adventurers to be aware of time spent with Jesus compared to time spent on secular activities. Help each child make a chart to keep track of his or her viewing and reading activities for at least two weeks.
4. Encourage the Adventurers to select a story or program that they feel will meet the standards of Philippians 4:8. Help them understand that you cannot always tell by reading a review or advertisement if it will be good by Jesus' standards. When you begin reading or viewing, if it is not proper, stop! Find something else. Encourage the children to make good choices.
5. Early selection helps us realize how much time we spend on these activities and helps us to be more selective.
6. Reinforce the principles of good reading and viewing habits as the Adventurers complete the story. Encourage imagination!

Sign Language

Requirements

1. Learn the manual alphabet used by the deaf and the rules pertaining to it.
2. Learn how to send and receive words using the manual alphabet.
3. Learn at least fifty words.
4. Learn and present at least one simple Christian song.
5. Where possible, have the Adventurers meet a deaf person and sign with them.

1. As available (from your local Association of the Deaf), use the two-sided manual alphabet cards. That way the children can see what the signs look like from both the sender's and receiver's angle.
2. First they can have fun learning to spell their names. Print words on a sheet of paper, and then have the children take turns spelling and receiving the words. Have children get in groups of two and send and receive words of their choice.
3. Words young people really like to learn are the animals and foods. Joy of Signing is a good book to learn these signs, as well as the other signs. It gives both a word and a picture description of each sign. It also tells the sign's origin (example: Jesus—origin: indicating the nail prints).
4. "Jesus Loves Me" and "Into My Heart" are two examples. Remember to explain the origins when needed.
5. Have someone from your deaf community come in and share a bit of their life with the children and teach them a few words. This will really bring this award to life.

Stamping Fun Art

 - b. Decorating with chalk
 - c. Decorating with markers
 - d. Using water color pencils
 - e. Masking image
6. Explain how to care for rubber stamps.
7. Make three different projects to give to a friend or family members.

Supporting Answers

1. The Bible; God's second book is nature.
2. In the New Testament: Paul, James, Peter, and Jude wrote letters to friends and churches.
3. You can use rubber stamps for art projects that show love, appreciation, and creativity through:
 - a. Handmade greeting cards
 - b. Book marks, tags, decorating paper, bags to wrap gifts
 - c. Scrap booking supplies
4. Basic Materials:
White card or different colors of craft cards, rubber stamps, stamp pads, Versa mark pad, stamping sponges, sponge tip applicators, Q-tips. Stamp cleaner, stamping chalks, markers, water color pencils, blender pen, glue stick or pen, double stick adhesive tape, mounting squares, glitter, punches, decorative ribbons.

5. Stamping techniques:
 - a. Two step stamping: stamp the base image with lighter ink and overlay or adjoining image with darker ink
 - b. Decorating with chalk: stamp image with a Versa mark inkpad or whisper craft stamping pad, then apply chalk color using sponge tip or cotton swab to fill in color.
 - c. Decorating with markers: use different colored markers to apply color directly to the stamp, blow onto the ink image to remoisten the ink with your breath before stamping onto paper.
 - d. Using water color pencils: Stamp image onto paper. Outline a section of the stamped image with a water color pencil, then use a damp brush or blend pen to move color where desired.
 - e. Masking image: stamp image on cardstock, stamp it again on a piece of scratch paper. Cut carefully around the scratch paper image cutting just inside the lines, this will be the mask. Place the mask on top of the cardstock image and stamp the desired image over the mask. Remove the mask so the new image will “disappear” behind the first one.
6. Clean the stamps after each use, especially the changing colors. Use a stamp cleaner bottle with scrubber or roll-on applicator top. A cellulose sponge works best because it does not break down. The sponge may be dampened with plain water, or add 1 or 2 drops of dish soap to the water, then blot dry with paper towel. Alcohol-free baby wipes also work well for cleaning stamps. Never soak rubber stamps in water or use oil based solvent to clean the stamps.

Tin Can Fun

Originated in: North American Division

Requirements

1. What is the earliest known use of tin and how is it used today?
2. Play the "Mystery Can Fun" game.
3. Keep a record of how many cans your family uses in a week.
4. How were things preserved in Jesus' day?
5. How was tin used in Bible times?
6. Make a telephone or stilts with tin cans.
7. Bring three cans of food to donate.

Supporting Answers

1. The earliest known use of tin was around 3500 B.C. when the people of Ur (now Iraq) made bronze articles. Bronze is an alloy of tin and copper. Today, tin is used mainly in the production of “tin plate,” which is steel coated on both sides with an extremely thin film of tin. Tin cans are made of “tin plate.”
2. Remove labels from a few cans and guess their contents.
3. Share results with the club.
4. Things were preserved by drying them out with salt. Dried fish, figs, and other fruits were common. Today most of the “tin plate” is used to coat the steel cans to give them an attractive appearance and protect the cans from rust. These cans are for packing food and other items that would quickly spoil.
5. Bronze is an alloy of tin. Offerings were brought of bronze; (Exodus 25:3). Fifty bronze clasps for the tabernacle were made; (Exodus 26:11). Moses made a bronze serpent and put it on a pole (Numbers 21:9).
6. To make a telephone: Poke a small hole in the bottom of two empty (and clean) cans. Put one end of a long string into each can end and tie a knot. Stretch the string tight and talk. One person will talk while the other person listens to create a “telephone.” God communicates with us like the telephone. We cannot see Him, but He is always ready to listen and help us. To make stilts: Poke a small hole on the two sides at the top of two cans. Tie a string to each can to create “stilts.” For stilt safety, use cans no smaller than 20 oz. and always wear shoes. “And walk in love...” Ephesians 5:2.

4. Household chores can be fun and are encouraged as ways a child can have a part in keeping the home clean. Learning to dust, sweep, and vacuum safely without causing more dust is important.
5. Teach the children to help empty wastebaskets and to place contents in larger trash container. Talk about how trash can be separated into glass, cans, and paper for recycling.
6. You may set up a “house” during Adventurer time. Encourage the children to work together to clean the “house” and show them how to perform necessary tasks neatly. Woodwork and window sills need to be dusted with a clean cloth or, if washable paint, a damp cloth. Place a clean rag or pillow slip over a broom to remove spider webs. Use water or window cleaner with clean cloth or paper towels to clean windows.

8. Help keep your house clean for one week.
9. Help with the laundry at home for one week.

Supporting Answers

1. Discuss the importance of using kind and “clean” words as Jesus would have us do. Locate the texts, read them together, and discuss what each means.
2. Make it interesting while you learn; remember that many may not be taught the basics of cleanliness at home. Play games, sing songs, or make posters to instill the basic principles. You may choose to see a video, read a book, or have a health specialist come talk with the Adventurers.
3. Teach the importance of clean hands before eating, after going to the rest room, and before handling food. If possible, have the Adventurers use a microscope to look at their hands. Have them wash with soap as they would normally wash, place their hands under a microscope again, wash carefully again and look at the difference.
4. Brush your teeth for two minutes, at least twice each day. Eat a balanced diet, cut back on sugary and starchy foods, and don’t chew on hard substances such as ice or popcorn kernels. Have a dentist or dental hygienist demonstrate proper brushing. (Sometimes they will give each child a toothbrush or other tooth care items).
5. A clean body is healthier. Share with the children some problems that might occur if they do not keep clean (lice, colds, infections, etc.) Play beauty shop and show how to wash hair properly, then dry and comb it. You may wish to have a beauty operator discuss and demonstrate good health habits for hair and hands.
6. The outside of our bodies need water to keep us clean and the inside of our bodies need water to keep us healthy. We need to drink at least eight glasses of water each day. Discuss how God made the Adventurers’ bodies.
7. It is important to keep our clothing clean so we will look and feel healthy. After playing or working and becoming dirty it is important to bathe and put on clean clothing.

3. Take a small shoe box, oatmeal box, etc. Have the children choose which constellation they wish to make. Draw the constellation on the outside end of the container. Poke a small hole where each star is located. Turn to other end and cut two medium eye-size holes to peek into. Hold peep box to light and view the constellations. Encourage variety in the constellations so when finished each child may guess which one he/she is viewing.
4. Observe and recognize some prominent stars and constellations. A star is a single body, such as the North Star. A constellation is a group of stars, such as the Big Dipper. Some of the brightest stars are Polaris, Castor, Regulus, Deneb, Altair, Rigel, Capella, and Vega; Orion, Leo, Libra, Lyra, Virgo, Taurus, Ursa Major, Ursa Minor, and Canis Major and Minor are a few of the constellations.  - h. A butterfly made of colored tissue clipped together with a clothes pin.
5. Learn a song about butterflies.

Supporting Answers

1. The butterfly is solitary except during migration, gathering on the damp ground to find water or nocturnal roosting. You may see male butterflies circling around each other to defend their territory. Butterflies and moths have a “coiled up drinking straw” below their heads called a proboscis. It is used to draw up nectar, water and other liquids. The length of the proboscis helps determine from which flowers they take nectar. Each type of butterfly picks flowers and usually stay on the same level, either low to the ground or higher. Very seldom will butterflies drink from flowers that face down.
2. Check with your library.
3. (A) Egg; (B) Larva or caterpillar; (C) Pupa or chrysalis; (D) Adult.
4. (Put your hands flat together in front of you, as in prayer. Open and close the top of your hands like a butterfly’s wings) When a butterfly sits and opens and closes its wings it warms its muscles and takes energy from the sun and stores it in its body. When we pray to Jesus we feel warm and good inside and we receive energy from Him to be happy, strong and do what is right. Continue to move your hands like a butterfly as we pray.
5. Option: “If I were a butterfly, I’d thank the Lord for my mighty fine wings...”

2. Help the Adventurers use a concordance to look up the words stones and rocks. Encourage the use of different Bible texts.
3. Place sand, soil, gravel, rocks, and water in a quart jar and gently shake the jar. Let it stand for one hour, then observe it. The layers that develop are the beginning of what is called sedimentary rock.
4. OR
5. Grow a crystal garden: Wet several large chunks of rock thoroughly. Add four tablespoons (1/4 cup) liquid laundry bluing. Hold your nose and add four tablespoons ammonia. Sprinkle four tablespoons of salt evenly all over the rocks. Put a few drops of food coloring and a few drops of bluing on one or two rocks. In about three days, add a mixture of two tablespoons water and two tablespoons ammonia and very carefully pour it into a puddle in the bowl. (If you pour it directly on the crystals you will melt them). Keep adding this water and ammonia mixture every few days.
6. Bring a collection of rocks and minerals to share with your group. Show children how to neatly label and display the ones they find and ways to store them. If you do not know the names of the rocks, use a reference book such as a field guide or encyclopedia as you try to label the rocks.

2. Describe the lifecycle of the ladybug. Make a poster.
3. Are all ladybugs red? Explain
4. Make two ladybug pet rocks. Give one away.

Supporting Answers

1. Ladybugs are a type of beetle. They have six short legs, two antennae, their top flying speed is about 15 miles per hour, they hibernate in winter, they let out a yellowish, bad smelling liquid when they are mad. (See websites for more info).
2. The female will lay 3-20 football shaped orange eggs in a circular cluster on the underside of leaves. Eggs are not visible to the naked eye. In 2-5 days the eggs turn into larva and consume up to 400 aphids in 21 days. They next turn into a pupa. After 2-5 days the adults come out and continue to eat. Adult ladybugs eat during the day and will consume over 5000 aphids each.
3. There are more than 450 species in North America. Some are black or vary from reddish-orange to pale yellow. The most common in the U.S. is the Convergent Lady Beetle, which is orange with black spots and the number of spots vary per species. 6. Read Leviticus 11:29-30.

Supporting Answers

1. Reptiles (lizards, snakes, and turtles) and Amphibians (salamanders, toads, and frogs) are called herps, which means “crawling things.” If you really like herps and like to watch and learn about them, you are a herper. If you go to college and study herps, you can become a herpetologist and teach, or work in a museum or a zoo.
2. If you do not have lizards in your area, you may study salamanders. If neither is available, go to pet stores, museums, use books, videos, etc.
3. Before you catch a lizard, you must prepare for this special guest.
 - a. If keeping the lizard for a short time, use a plastic see-through jar with air holes.
 - b. If you keep the lizard for more than a few hours you must (1) Know what type of lizard it is and how to care for it. (2) Provide a larger container, water, and food. (3) Place newspaper or sand in the bottom of the container to keep it dry.
4. Observe the lizard in its habitat or other locations as mentioned in Helps #2. Try catching a lizard by hand or by using a noose (as described in Peterson Field Guide).

3. When a blue whale is born, its coat of blubber is 1 inch (2 1/2 cm.) thick. It gains seven pounds (3 1/4 Kg.) a day and the blubber is one foot (30 1/2 cm.) thick and the whale weighs 30 tons (27,279 Kg.) when full grown. It is the largest living animal and may be as much as 90 feet (27 meters) long and weighing 110 tons (100,000 Kg.) or more. Its flippers can be 10 feet (3 meters) long and its flukes 15 feet (4 1/2 meters) from tip to tip. The heart is the size of a Volkswagen and a human could crawl through the aorta. The tongue is as heavy as an elephant.
4. Place a few marks (dot-to-dot concept) as guides for drawing the actual outline of a whale or draw just a straight line to show the length of the whale.
5. The blue whale is called the moustache whale because it uses the baleen inside its mouth to strain the water out its mouth and to keep plankton and small fish inside. The blue whale swims at 15 miles per hour (30 Kph) and migrates throughout the year to find food. It eats up to two tons (1800 Kg.) of food a day and may live to be 60 years old. Blue whales give birth once every two years. All whales are very social. They travel in schools and love to play with each other.

Steps to Jesus

Originated in: North American Division

Requirements

1. Understand the steps to salvation:
 - a. God is love (1 John 4:8). God loves me very much (Jer. 31:3). God loves everyone (John 3:16).
 - b. I am a sinner. Everyone does wrong and is a sinner, thus everyone needs salvation because sinners will die forever (Rom 3:23).
 - c. God sent Jesus to die so I wouldn't have to die forever (John 3:16). Then He rose again as my Savior (1Cor. 5:3, 4). When I receive Jesus, all my sins will be forgiven (Isa. 1:18; Ps. 51:7-11; 1 John 2:1, 2).
 - d. Salvation is a gift God gives me. I must personally ask Jesus to be my Savior.
 - e. (John 1:12). God hears me when I pray.
 - f. If I have accepted Jesus, I have become a new person, one who doesn't want to do wrong because I love Jesus and Jesus loves me (John 3:3-7; 2 Cor. 5:17).
 - g. I can be sure that I am saved when I have asked Jesus to be my Savior (John 3:26; Heb. 13:5). Because I am sinful, I will still make mistakes. But if I confess my sins to Jesus, He will forgive me and remove my guilt completely (Jer. 31:34). God wants me to confess to others who are hurt by my actions (1 John 1:9) and make restitution to them (Luke 19:8), and then totally turn away from sin (John 8:11).
2. Read and discuss with an adult four of the following Bible stories on conversion/salvation:
 - a. The Ethiopian converted (Acts 8:26-40)
 - b. Naaman washed clean (2 Kings 5)
 - c. Jesus loves children (Matt. 19:13-15)
 - d. The lost coin, sheep, and son (Luke 15)
 - e. Zacchaeus (Luke 19:1-10)
 - f. Jailer converted (Acts 16:21-34)
3. Memorize John 3:16, Acts 16:31, and 1 John 1:9
4. Spend regular quiet time with Jesus.
5. Make a personal choice to accept Jesus as Savior and Lord. Discuss your decision with a parent or club teacher.
 - a. Trace around your foot on paper and decorate any way you like, including the words of commitment: I ____ (your name) have taken my first steps to Jesus today ____ (date) with ____ (adult witness'

name).

- b. Show the foot (commitment response to a club teacher, to receive a certificate and award patch.

Supporting Answers

1. Make these concepts as simple as needed for the child to grasp. The most important concept is that she/he recognize the nature of sin (wrong doing) and its consequences (eternal death), and that they ask Jesus to forgive and be his/her Savior.
2. These stories would make great children's church sermons, club devotionals, or family worship. Create wonder-inspiring moments for the child to understand God's great interest in his/her salvation.
3. Suggestion: illustrate the texts on a bookmark for their personal Bible or give to someone who wants to know more about Jesus.
4. Encourage a planned, regular time with God—can be with parent, family worship, club, or alone. Commitment is key.
5. Personal commitment in young children is often spontaneous and publicly shown. But this award encourages a personal decision made contemplatively at home with parents. However, when a home-inspired decision is not possible, a teacher or other caring individual may be the best one to nurture this first step as privately as possible. Warmly welcome the child as the newest member of the family of God, assuring them of God's unfailing love, acceptance, forgiveness, and great care. An extra project is recommended. Encourage the child to further respond in their own way—create a song, poem, painting, drawing, sculpture, or express themselves with video, camera, or computer (but never force).

2. Drug abuse is the misuse of any drug or medication. Temperance means self-control in any aspect of life, including the use of harmful substances.
