

Butterfly

# How do butterflies live and eat

- ▶ Well, **butterflies live** a lot of their lives flying around in the air looking for food and pollinating flowers. **Butterflies** primarily **live** around flowers as they **eat** their nectar. **Butterflies** will also **live** on plants, to **eat** the plant sap, or near rotting fruits.

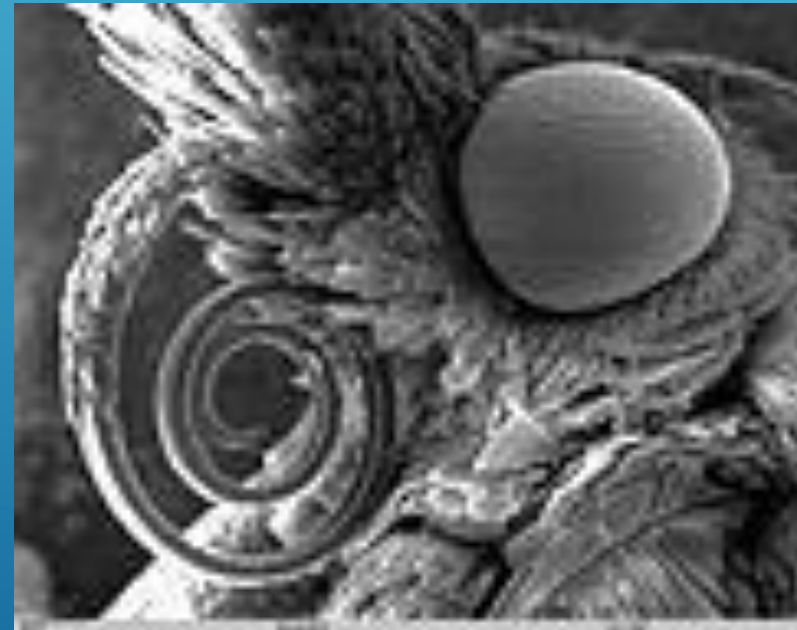

## HOW DO BUTTERFLIES LIVE AND EAT?

YOU MAY SEE MALE BUTTERFLIES CIRCLING  
AROUND EACH OTHER TO DEFEND THEIR  
TERRITORY

- ▶ A tubular sucking organ, the **proboscis** enables a **butterfly** to extract sweet nectar from the flowers it feeds upon, regardless of the shape of the blossom. When not being used, a **butterfly's proboscis** is rolled up out of the way.

- ▶ 2. Collect pictures, stickers or photos of butterflies that live in your area

British  
butterflies

▶ 3. the life cycle of a butterfly

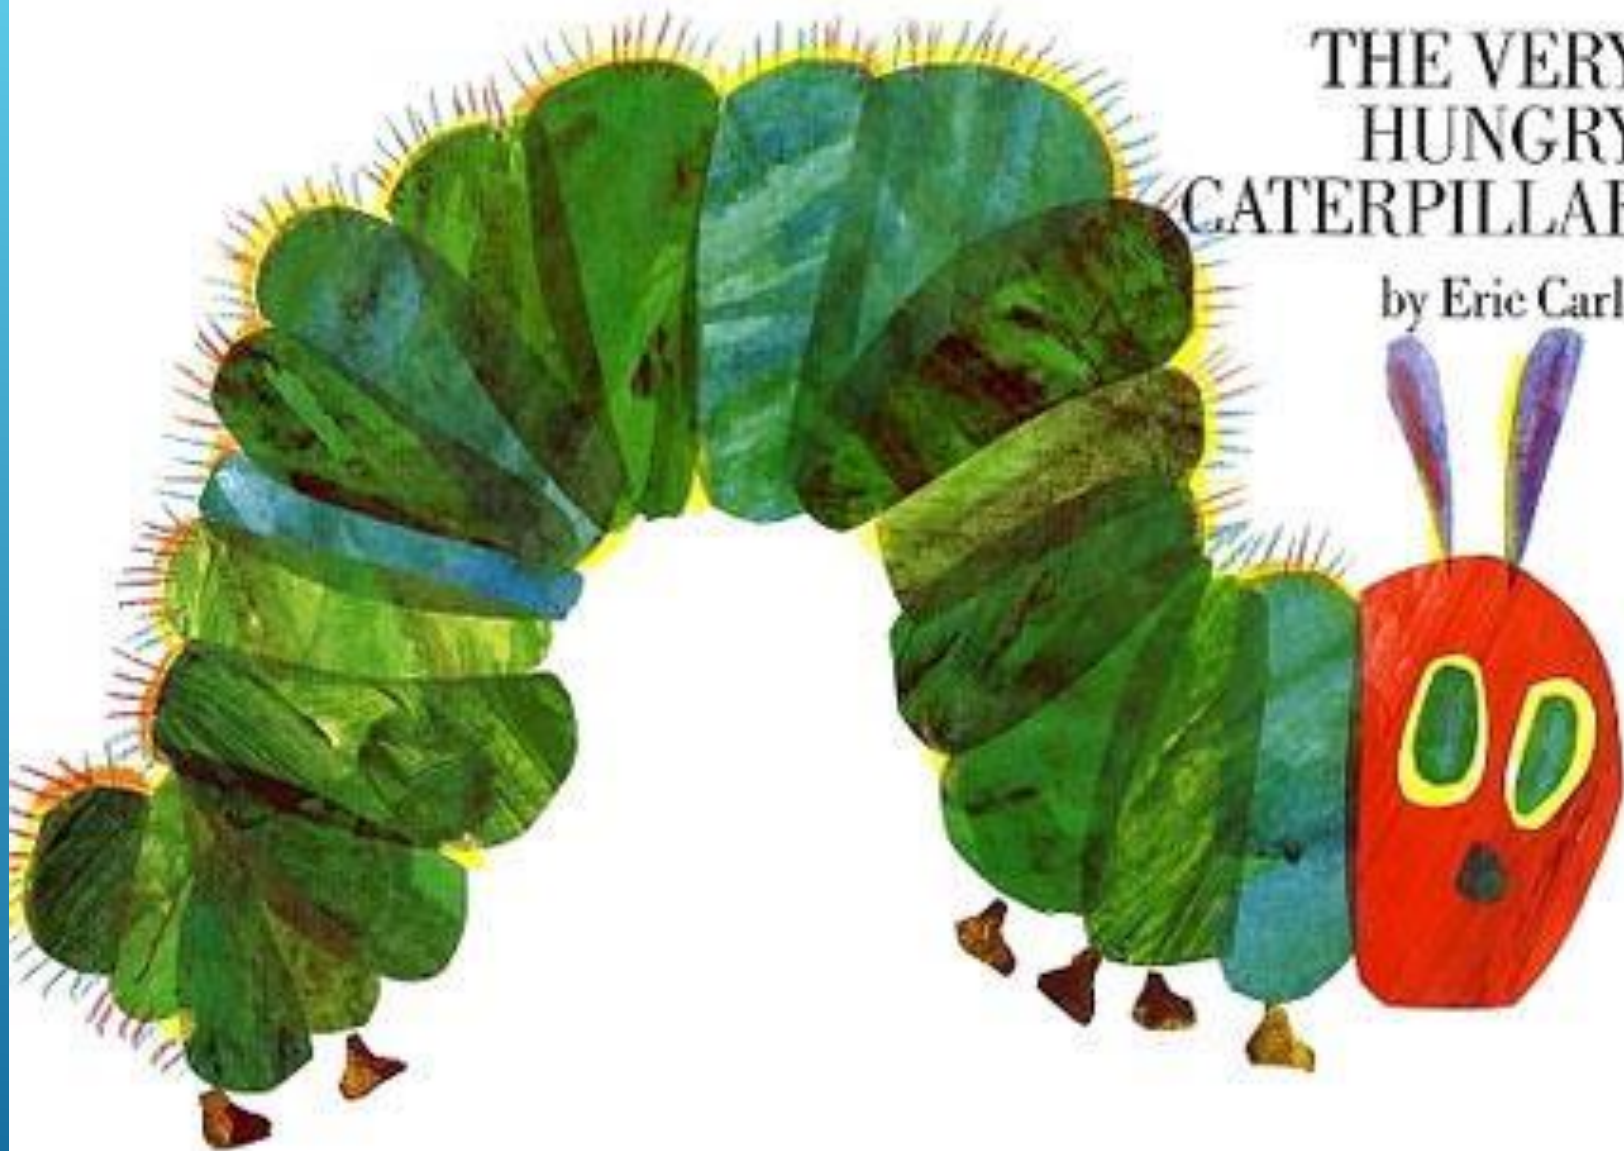

▶ discuss and draw

# THE VERY HUNGRY CATERPILLAR

by Eric Carle

- ▶ 4. memorise John 3:7 and discuss the story of Nicodemus in John 3

Do not marvel that I said to you  
That you must be born again.

There was a man of the Pharisees  
named Nicodemus,  
a ruler of the Jews...

He wanted to know how he  
could be born again..

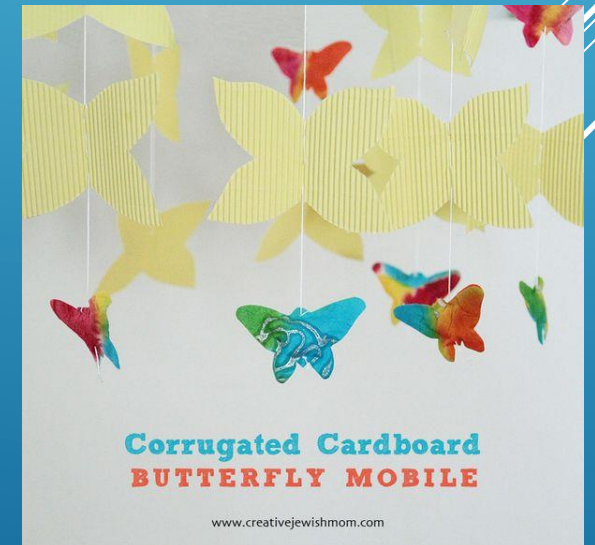

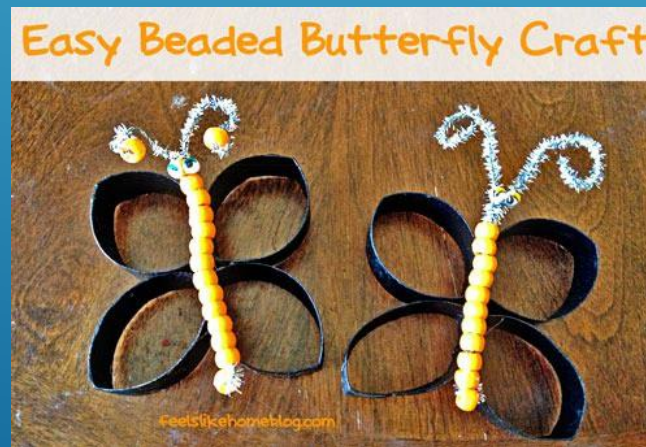

5..... My favourite bit.....
